

PROFILE BEVEL

Bring that professional bevel profile to the corner of concrete benchtops, step treads, benchtops & more. Eliminate time intensive hand shaping and dramatically improve accuracy with our bevel profile wheel.

FEATURES & BENEFITS:

- Diamond plated profiling surface.
- Ball bearing guide wheel/roller & guide collar.
- High surface diamond content ensuring rapid productivity.
- Easy attachment to angle grinder.
- Multiple ports in surface for water feed (if using central water feed capable angle grinder).

APPLICATION:

- External corner detailing/shaping on concrete benchtops, stairs and pool coping surrounds/overhangs where an angled/bevel effect is sought.

SPECIFICATIONS:

- 65mm diameter.
- M14 thread attachment.
- Max 15mm length bevel edge.
- Wet & dry use.
- Available in grits 30/40 & 100/120.
- Maximum recommended speed 10,000rpm.
