

## PROFILE BULL

Bring that professional bevel profile to the corner of concrete benchtops, step treads, benchtops, pools and more. Eliminate time intensive hand- shaping, dramatically improving accuracy and refinement with the WORX+ bullnose profile tool.

### FEATURES & BENEFITS:

- Diamond plated profiling surface.
- Ball bearing guide wheel/roller & guide collar.
- High surface diamond content ensuring rapid productivity.
- Easy attachment to angle grinder.
- Multiple ports in surface for water feed (if using central water feed capable angle grinder).

### APPLICATION:

- External corner detailing
- Shaping on concrete benchtops
- Stairs and pool coping surrounds
- Overhangs where a round/bullnose effect is required.

### SPECIFICATIONS:

- 65mm diameter.
- M14 thread attachment.
- 10mm diameter curve/bullnose.
- Wet & dry use.
- Available in grits 30/40 & 100/120.
- Maximum recommended speed 10,000rpm.
