TECHNICAL INFORMATION

TEMPO XD

TEMPO XD :

- XTRA DUTY
- XTRA SHINE
- XTRA LONGEVITY
- XTRA PERFORMANCE

The WORX+ Tempo XD are the next generation diamond coated floor buffing pads. With polishing and gloss results on par with traditional resin diamond tools, Tempo XD are designed for ultra performance under the pressure, RPM and torque of heavy industrial floor grinding and polishing machines. The extra density buffing pads, integrated with exclusive WORX+ CGT, deliver unparalleled longevity, productivity and gloss.

Features:

- Exceptional product longevity compared to traditional diamond coated buffing pads.
- High diamond pad content delivers total performance for the life of the pad.
- Extremely high production rates when compared to traditional diamond impregnated pads.
- Consistently exceptional gloss levels.
- Integrated WORX+ CGT

Specifications:

- Available in a range of sizes including 125mm (5 inch), 180 / 7 inch, 230mm / 9 inch, 280mm / 11 inch diameters
- Available in 200, 400, 800, 1500, 3000 & 5000 grits

Applications:

- Concrete
- Natural Stone
- Ideal for heavier pressure floor grinders, planetary, burnishing machines and auto scrubbers.
