

# VERSA-FIT DUST SHROUD

## TECHNICAL INFORMATION

Take control of dust from hand-grinding applications with the Versa-Fit Dust Shroud!

A versatile dust shroud that converts angle grinders and variable speed polishers into concrete grinding and polishing machines. It's designed to fit a wide range of angle grinders & variable-speed polishers with a simple installation process.

### Features:

- Lightweight construction contributes to ease of handling.
- Quick release fitting mechanism.
- A variety of spacers included enables secure fitting to angle grinder gearbox flange.
- Spring-loaded brush skirt ensures no "sucking to floor" regardless of connected vacuum capacity.
- Slide away guard front enables grinding up against wall/floor fixtures.

### Specifications:

- Available to suit 5" & 7" (125mm & 180mm) diamond tools.
- 38mm dust port for vacuum hose attachment.

### Range of Applications:

- Concrete grinding & polishing.
- Natural stone grinding & polishing.
- Terrazzo grinding & polishing.
- Grinding/removal of render.
- Floor & wall surface coating removal.

### Safety Measures:

- Always use in conjunction with appropriate eye, ear, respiratory & skin protection.
- Ensure capacity of vacuum connected is adequate for application being performed.
- Always ensure awareness of the composition of material being ground.
